Today is a joy, with sadness in my heart, to say thank you very much. All the problems I encountered on September 18th where I lost 28 people in my family. I still stand firm in God. I am not discouraged with my God. God has given me grace now in that I have a house to live in. I do not need to stay on the front porch of another person again. I say thank you to God and thank you to you for this house that I am living in now. The two children I lost in the flood, still brings tears to my eyes. Thank you, very, very much.

Signed: Sister Rony

It is with a lot of recognition - that I say thank you very much for this beautiful gift that I received. God is love and he can bless you a lot. Thank you very much for this house that I have received for my family to live in.

Isaac Dorsainvil

I am very happy because God thought of me. He put love in your hearts for us to receive a beautiful blessing which is this house. I say thank you very much for this beautiful gift.

Mme. Gedeon Lamartine

Merci Ampil

~ Thank You Very Much

When visiting Sous Raille last month, eight-year-old Chantale Leonard was pointed out to me. Flood waters had carried her away as she clung to a banana plant on the afternoon of September 18th. She eventually rode the raging waters in the branches of a floating tree until morning. After five days of great distress, she found her way home.

We are truly grateful for the financial support we received towards the recovery efforts after Hurricane Jeanne hit our area in Gonaives, Haiti. I just returned from Haiti and wanted to share this great news of the results of your donation.

Thus far:

- 210 families have been assisted with cash and supplies to replenish and rebuild what was lost.
- A new well and pump have been installed in the rural community of Sous Raille
- 32 new houses have been built for families who lost their homes.
- Funds have been given to cover loan losses incurred due to the flood.

We are planning to continue building houses and assist in building several churches as funds are received. Thank you for your part in the recovery!
